An advertisement banner for a horse betting system. On the left, there is a circular image of several horses racing on a track. To the right of the image, the text reads: "AN INCOME FROM RACING" in white on a red background. Next to it, in large yellow and white letters, is "Guaranteed Horse Betting Profits!". Below that, in smaller white text, it says "The Safest Horse Racing Betting System That Makes You Real Money Consistently No Matter Where In The World You Live". At the bottom of the banner, the website address "www.horse-bet-racing.info" is written in blue.

## Introduction

Making money from horse bet racing is now a reality. Millions of dollars are being paid out each day to successful punters. There are far more successful punters now then ever before.

You don't need to pay thousands for computer software systems that don't work. You don't even need to be particularly clever in mathematics or have thousands of dollars to start with. You can start right now and build your own betting empire with a well-organized plan and the right attitude. You see, making money from racing is no different from other forms of investments. With the right mindset and resources, only the sky is the limit to how much money you can make. Slowly but surely you could earn a steady income from it year after year.

However, like any other business venture, racing has its fair share of risks too. In fact betting on the horses is probably one of the most risky ways to earn a living. Don't let anyone else tell you other wise! Especially a salesperson at the other end of the telephone trying to sell you betting software for \$10,000.

Being such a risky business punters still pursue it because of one main reason. It is probably the most rewarding and fulfilling moneymaking venture anyone can get into - only if you can make it work that is!

Horse racing, **normally**, is gambling, not investing. And so is buying Yahoo! shares or buying a McDonald's franchise. Almost everything in life is a gamble, more so with money matters. With gambling comes risks and nothing is ever 100% guaranteed to work. **However**, you can dramatically reduce your risks by taking calculated risks only. When you take calculated risks you base your decisions on sound research and evidence, not intuition. So what is the difference between betting on the horses and other gambling ventures? Well unlike other gambling pursuits, horserace wagering is not fully relied upon chance. The better informed the player is, the better chance he/she has at making money!

Read Some of the follow testimonials below by real owners of this complete Horse Bet Racing system. Every day we receive dozens of unsolicited emails like the ones shown below. This is a horse bet racing system that works!

### **I HAVE ONLY ONE ADVICE – START USING MOHAMMED’S SYSTEM A.S.A.P!**

"I bought your printed version of the book about 7 years ago and can honestly say that it has been the **best low cost moneymaking product ever!** At first I was a bit frustrated with the low number of selections available to bet each week but later realized this was for my own good. Now at 65 I am retired and use your system virtually everyday. **I have even managed to pay for several holidays using the winnings and have always had my pocket full with cash.** Maybe the extra happiness has added a few more years to my life. May god bless you."

*Mortensen Robertson – West Sussex, UK*

### **YOUR SYSTEM IS A CLEAR WINNER!**

"I always knew 'place betting' on favorites was a good combination to make a consistent profit from. However I neither had the time or expertise to exploit this strategy. Last month I stumbled across your system by mistake and have proved my hunch correct. I am currently writing a book on the history of horseracing and will incorporate some of the information from your manual in it (with your permission of course)."

*John Cramer – Tampa, Florida*

### BEGINNERS LUCK...OR IS IT?

"I live on a small island in the South Pacific called Vanuatu. We don't have any local racing but I use the Internet to make bets. Since using your manual I have been making \$90-\$110 every week on average. On the first day I made \$160 using only \$18. I had never followed horseracing before until I started to use your system. I am very pleased with the results."

*Kiri Vanese - Port Villa, Vanuatu*

### MADE ME \$6,000 BETTER!

"Since using your system on and off for the past 5 months I have made approximately \$6,000. I use to be a reckless gambler but now I use a plan and stick to it...thanks to your manual."

*Todd Law - San Diego, California*

### I PLAN TO MAKE \$50,000 THIS YEAR!

"Using your staking plan I can see it is very possible to make \$50,000 per year in income. I started out small and have now accumulated over \$7,000 already. The compounding effect is phenomenal! Anyone who doesn't use your technique is definitely missing out on a very good deal in life."
